DATE MAILED: 06/23/2006

Please find below and/or attached an Office communication concerning this application or proceeding.

Office Action Summary	Application No. 10/710,747	Applicant(s) OI, TAKESHI	
	Examiner Marlon A. Arce-Diaz	Art Unit 3611	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 05 April 2006.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

- 4) ☒ Claim(s) 1-4 and 6-20 is/are pending in the application.
4a) Of the above claim(s) _____ is/are withdrawn from consideration.
- 5) ☒ Claim(s) 11,12 is/are allowed.
- 6) ☒ Claim(s) 1,2,6-10,13 and 15-20 is/are rejected.
- 7) ☒ Claim(s) 3,4 and 14 is/are objected to.
- 8) ☐ Claim(s) _____ are subject to restriction and/or election requirement.

Application Papers

- 9) ☐ The specification is objected to by the Examiner.
- 10) ☐ The drawing(s) filed on _____ is/are: a) ☐ accepted or b) ☐ objected to by the Examiner.
Applicant may not request that any objection to the drawing(s) be held in abeyance. See 37 CFR 1.85(a).
Replacement drawing sheet(s) including the correction is required if the drawing(s) is objected to. See 37 CFR 1.121(d).
- 11) ☐ The oath or declaration is objected to by the Examiner. Note the attached Office Action or form PTO-152.

Priority under 35 U.S.C. § 119

- 12) ☐ Acknowledgment is made of a claim for foreign priority under 35 U.S.C. § 119(a)-(d) or (f).
a) ☐ All b) ☐ Some * c) ☐ None of:
1. ☐ Certified copies of the priority documents have been received.
2. ☐ Certified copies of the priority documents have been received in Application No. _____.
3. ☐ Copies of the certified copies of the priority documents have been received in this National Stage application from the International Bureau (PCT Rule 17.2(a)).
- * See the attached detailed Office action for a list of the certified copies not received.

Attachment(s)

- 1) ☐ Notice of References Cited (PTO-892)
- 2) ☐ Notice of Draftsperson's Patent Drawing Review (PTO-948)
- 3) ☒ Information Disclosure Statement(s) (PTO-1449 or PTO/SB/08)
Paper No(s)/Mail Date 5/22/06.
- 4) ☐ Interview Summary (PTO-413)
Paper No(s)/Mail Date. _____.
- 5) ☐ Notice of Informal Patent Application (PTO-152)
- 6) ☐ Other: _____.

DETAILED ACTION

Response to Arguments

1. Applicant's arguments, see amendment, filed 4/5/06, with respect to the rejection(s) of claim(s) 1-4,6-12 under 35 U.S.C 102 have been fully considered and are persuasive. Therefore, the rejections have been withdrawn. However, upon further consideration, the rejection based on Spangler in view of McDermitt is maintained. Further explanation of the Spangler in view of McDermitt follows. Examiner believes that it would be obvious for someone skilled in the art to include apertures to the frame disclosed by Spangler, specially on the triangular elongated partitions shown in figure 2, an aperture such as the one disclosed by McDermitt can be included on the outer wall of the frame in order to allow the cables to go through the frame. Schematic below show the place where the aperture could be placed on Spangler's frame.

Many bicycles now and day have the cables running through the frame for better aesthetics, and to allow the rider to operate the bicycle without having cables

Art Unit: 3611

obstructing or getting in the way of operation. Examiner also notices that a second aperture could be done on the other triangular partition to allow a second cable through. Claim 5 has been cancelled; also, claims 14-20 have been added. The 103 rejection is repeated below.

Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 1,2,6-10,13,15-20 are rejected under 35 U.S.C. 103(a) as being unpatentable over Spangler (US Patent No 5,221,102) in view of McDermitt (US Patent No 5,478,100). Spangler discloses a bicycle frame comprising: a frame (10), said frame is cylindrical in shape, having cross members (38,40) inside the frame as shown in figure 2 where it shows different chambers. Spangler fails to disclose the use of an insertion opening on the outer peripheral surface and, a lid member. McDermitt discloses a bicycle frame having thru the tube cable routing comprising: a frame (2), with a top tub (8). Top tub (8) has an aperture (24) shown in figure 4 where the cable (48) is inserted, said cable stops large objects from entering the frame. Ferrules (44) form a cap to close any type of gap between the cable and the aperture. It would have been obvious for one skilled in the art at the time the invention was made to include apertures to Spangler's frame to allow the cables or any other type of object to run

Art Unit: 3611

through the frame for better aesthetics. Schematic above shows the first second and third partitions.

Allowable Subject Matter

3. Claims 3,4 and 14 objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

4. Claims 11 and 12 are allowed. There was no art found on the bicycle member being a handle bar or a handle bar stem.

Conclusion

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
